

Since the 1950s, the vision for the Fraser Valley has been “cities in a sea of green.” Regional plans still emphasize the same strategy:

*so people will choose  
to walk, not drive.*

**Concentrate  
population and jobs**

*pls see tabs 26a; 26a-2;  
27a and 27c*

**Link town centres  
by good transit**

**Use rapid transit  
to help ‘shape’ growth**
